Staying Fit and Active on the Job—Working Healthy and Mindful

Learning objectivesTyler

- · Understanding physical and mental stressors
- · Being able to maintain your own physical health
- · Planning breaks and downtime effectively
- · Taking good care of yourself
- Implementing mindfulness into your daily work routine

Target group

Employees and (prospective) managers who want to do something for their health; Employees and (prospective) managers who are under a lot of strain and/or are not physically fit

Mental Health: Safeguarding Employee Mental Health—Prioritizing Well-Being

Learning objectivesTyler

- Knowing the importance of mental health in a corporate context
- Understanding the influence of leadership styles on the mental health of your employees
- Knowing and being able to create organizational framework conditions to promote mental health in the workplace
- · Protecting your own mental health as a manager

Target group

Managers who want to promote and maintain the mental health of their team and themselves

Mental Health: Being Mindful in Your Daily Work Routine

Learning objectivesTyler

- · Grasping resource-oriented health concepts
- Understanding the significance of colleagues as well as social networks for mental health
- Embracing the concept of mindfulness and engaging in corresponding exercises
- Recognizing your own influence on mental health and feeling empowered to take action

Target group

Employees across all departments and levels, regardless of their managerial status, who seek to enhance their mental well-being in the workplace.

Mastering Changeability: Handling and Shaping Change

Available in these languages:

German

MACROLEARNING

60 minutes

Learning objectivesTyler

- Accepting change as a reality of life and a welcome challenge
- Adopting an open, curious mindset for navigating change
- Strengthening personal resilience and improving emotional self-regulation
- Taking self-determined action despite uncertainty or conflicting information
- Leveraging team resources and resilience to create meaning and benefits from major changes

Target group

Employees with and without a management position who want to actively shape and grow with future changes in (working) life

Self-reflection and self-coaching: dealing constructively with weaknesses and developing

Learning objectivesTyler

- Appreciative and development-orientated self-reflection
- Analyse your own strengths and weaknesses and derive development goals from them
- Coaching yourself to tackle personal development in a self-determined way and develop the willpower to achieve goals

Target group

Employees with and without a management position who want to get to know themselves and their strengths and weaknesses better in order to find a constructive, development-orientated way of dealing with them.

Resilience—Increasing Your Inner Resilience

Learning objectivesTyler

- Understanding the concept of resilience and its relevance for everyday work
- Knowing the seven pillars of resilience and being able to use them in difficult situations
- Promoting optimism, accepting stressful situations, and being able to act in a solution-oriented manner
- Being able to confidently deal with challenges and take on responsibility
- Using your own network and being able to actively create your own future

Target group

Employees with and without managerial responsibility who want to train their inner resilience; employees with and without managerial responsibility who want to prepare for professional challenges

Stress Management—Mastering Stress Successfully and Calmly

Learning objectivesTyler

- Understanding and being able to classify stress
- Understanding the relationship between stressors
- · Learning about stress amplifiers
- · Managing stress confidently and successfully
- encountering stress in a constructive way in your day-to-day life

Target group

Employees and managers who experience very high levels of stress; employees and managers who want to improve their stress management and take care of their health

Understanding and Managing Burnout Better

Learning objectivesTyler

- Being able to correctly classify the term "burnout"
- Being able to differentiate between the three phases of burnout development
- Knowing the risk factors for burnout
- · Knowing preventive measures against burnout
- Being able to act correctly in the event of obvious burnout symptoms

Target group

Employees and managers who are highly stressed and strained; Employees and managers who have the feeling that they have, or are getting, burnout; Employees and managers who are interested in the topic of burnout and would like to learn more about it; Employees and managers who want to prevent burnout; Employees and managers who have the impression that someone in their environment is suffering from burnout, and would like to know how they can help

Smart Stress Management

Learning objectivesTyler

- Knowing the connection between stress and burnout
- Compiling a personal stress profile
- Being able to discern between stress, stressors and stress reactions
- · Reducing stressors and managing stress
- · Recognizing and preventing burnout

Target group

Employees showing signs of stress and overload; employees looking for methods to help them deal with stress

Purpose—Understanding and Achieving Success

Learning objectivesTyler

- Understanding the importance of purposeful work
- Knowing ways to find purpose and joy on the job
- Finding your own "why"
- Combining your passion with your purpose
- Bringing your own why to the company

Target group

Employee and managers who ask themselves about the purpose of their work; employees and managers who want to improve their job satisfaction

Moving into the Age of AI with Confidence

Learning objectivesTyler

- Acknowledging and embracing the growing influence of AI on the workplace and our daily activities
- Learning tactics to strengthen one's own resilience, to approach upcoming changes confidently and optimistically
- Identifying challenges within change processes and mastering tactics to effectively address them
- Discovering one's own purpose and adjusting your work accordingly using active job crafting

Target group

Employees, with or without a management role, who do not know how they and their team should deal with the changing world of work due to AI.

Bringing Ideas to Life: Turning Intentions into Action

50 minutes

Learning objectivesTyler

- Setting realistic, motivating goals
- Planning action steps to achieve goals
- Remaining disciplined when carrying out goal-oriented actions
- · Analyzing the result of the action constructively

Target group

Employees with and without a management position who want to learn how to achieve their professional and personal goals better and more sustainably

A Company-First Mindset: Taking Ownership and Making Decisions

Learning objectivesTyler

- Understanding that acting and thinking in the interest of the company also benefits the employees themselves
- · Taking responsibility for one's roles and decisions
- · Making decisions thoughtfully and autonomously
- Dealing constructively with wrong decisions
- Aligning the company's perspective, the customer's perspective, and one's own perspective in a productive way

Target group

Managers and employees in non-leadership roles seeking to maximize their decision-making authority, recognize and embrace their responsibilities, and grow from their experiences

Staying in Control : Managing Uncertainty and Ambivalence with Confidence

Learning objectivesTyler

- Develop tolerance for ambiguity
- Recognize uncertainty in yourself
- · Question your own convictions
- Be able to interpret feelings
- · Include intuition in situations

Target group

Employees with and without a management function; Project managers; Consultants

Emotional Intelligence Unlocked: Smart Strategies for Managing Emotions with Confi-

Learning objectivesTyler

- · Positively influencing one's own emotions
- Developing a sense for the demands of emotional situations
- Maintaining self-control in emotionally charged situations

Target group

Employees with or without leadership roles who want to improve their emotional intelligence

Dare to Try Something New: Moving Out of Your Comfort Zone with Confidence

Learning objectivesTyler

- Pushing your own boundaries
- Handling failure
- · Creating an alternative to the original plan

Target group

Employees with and without management responsibility, who want to gain new experiences

Self-Motivation

Learning objectivesTyler

- Finding motivators
- Staying motivated long term
- · Feeling satisfied at the end of the day
- Staying focused, even when work isn't particularly exciting

Target group

employees in home offices; All employees who would like to work in a more concentrated and focused manner; employees who want to achieve their goals

Self-Organized Learning

Learning objectivesTyler

- Knowing the key elements of a learning process
- Finding out about your own learning needs
- Developing smart learning goals and figuring out learning content
- Selecting suitable learning resources
- · Creating an individual framework for learning
- Evaluating the learning process

Target group

Employees who would like to take greater control over their own training

Workout for Your Career

Learning objectivesTyler

- Acting confidently when taking responsibility at decisive moments
- Exercising focused willpower and courage for the next stage of the career
- Preparing for challenges with quantitative and qualitative practice
- · Breaking out of routines to slow down thinking
- Recognizing and using empathy and appreciation as part and parcel of good leadership

Target group

Managers and people on their way to becoming managers who want to adapt to the demands of our increasingly fast-paced world and chart their own path in taking charge of their careers.

Enhancing Employability—Staying Competitive in the Job Market

Learning objectivesTyler

- Exploring and comprehending the concept of employability and its significance
- · Strengthening your own human capital
- Expanding social resources
- · Cultivating mental resources

Target group

Employees who want to remain attractive and productive on the job market in the long term; Employees who want to learn more about employability and their own work-related resources; Employees who want to develop themselves and their own skills continuously and sustainably

Learning to Learn: Identifying and Seizing Further Development Opportunities

Available in these languages:

German

MACROLEARNING

50 minutes

Learning objectivesTyler

- Understanding the importance of lifelong learning and adjusting one's personal development accordingly
- Identifying one's own learning and development needs
- Being familiar with diverse learning methods and utilizing them as appropriate

Target group

Employees across all departments and levels, regardless of their managerial status, who want to expand and update their knowledge and skills.

How to Focus: Techniques to Resist Distractions and Boost Concentration

Learning objectivesTyler

- Maintaining focus on the task at hand despite digital and analog distractions
- Improving your environment to support concentration and establishing helpful routines
- Sustaining long-term focus in life and working on personal development

Target group

Employees with and without management positions who no longer want to be distracted by the distractions of the modern world.

Learning Strategies—Method Toolbox

Learning objectivesTyler

- Learning how to retain information using mnemonics, committing material to memory and recalling it later with confidence
- Consolidating new and existing knowledge using elaboration strategies
- Consolidating information and structuring it around the essentials
- Efficiently reading and processing texts that convey knowledge
- Taking helpful notes

Target group

Employees who want to acquire knowledge on their own

Time Management

Learning objectivesTyler

- Understanding the basics of time management
- Setting targets and deriving tasks from these
- Setting clear priorities
- Making batching more effective
- Benefiting from the advantages of timeboxing
- Using the Pomodoro method to focus on your work

Target group

Managers who need new methods of time managament; junior employees who are new to leadership roles; employees and teams who work in a self-organized manner and/or have difficulties in time management

Working Successfully in Your Home Office

Learning objectivesTyler

- Understanding the greatest challenges when working from home
- Using time effectively when working from home
- Designing your workspace in your home office
- · Learning about the best ways to avoid distractions
- Staying self-motivated

Target group

Employees who work from home all or part of the time

Becoming More Productive and Satisfied at Work

Learning objectivesTyler

- Learning how to plan the working day effectively in just a few minutes
- Discovering how to work more productively with less stress
- Finding out how to clear your mind for the things that are really important
- Owl or lark: Finding out what influence our internal clock has on our performance
- Finding out what a "flow state" is, when the "flow state" sets in, and what sets it in motion
- Learning how to succeed in attaining higher and lasting job satisfaction

Target group

Managers and employees who want to improve their productivity

Overcoming the Digital Information Overload

Learning objectivesTyler

- Understanding the adverse consequences of the digital information overload
- Becoming familiar with the various strategies to reduce the digital information overload
- · Working efficiently despite the information overload
- Keeping the ideal overview-with the right tools and tricks
- Finding your digital balance

Target group

Employees with or without management responsibilities, who use many different media in their everyday work and process a wealth of information on a daily basis

Hybrid Work – Scoring in Online and Offline Settings

Learning objectivesTyler

- Learning what a hybrid team is, what opportunities and challenges exist there
- Internalizing the basic rules for hybrid collaboration
- Being aware of the limits of hybrid work and planning joint "office activities"
- Learning to shape and strengthen the team spirit despite physical distance
- · Mastering (hybrid) team meetings
- Getting to know your own needs, claiming them and showing presence

Target group

This training is intended for employees who work in teams that split their time between the office and working from home, on either a permanent or temporary basis.

Effective Problem-Solving—Strategies for Identifying and Solving Issues

Learning objectivesTyler

- · Being able to categorize the term problem
- Understanding the prototypical process of problem-solving
- · Applying problem analysis strategies
- · Utilizing methods to find solutions
- Recognizing that executing problem-solving can be a lengthy procedure

Target group

Employees with and without management positions from all business areas and industries who encounter (complex) challenges in their professional life without directly apparent solutions

Fostering Creativity—Methods for Your Toolbox

Learning objectivesTyler

- Getting to know different creativity methods for finding ideas
- Knowing the necessary framework for the implementation of creative methods
- Practical use of certain techniques in certain situations

Target group

Employees who collaborate in creative teams; prospective as well as experienced managers and everyone who is interested in refreshing their skills with methods in the area of creativity techniques

Female Leadership—Leading Successfully Despite Gender Barriers

Learning objectivesTyler

- · Identifying what female leadership is and means
- Exploring the difficulties women in leadership often face
- Dealing with difficulties successfully, and thus becoming (even better) leaders
- Considering the importance of goals in your own leadership career
- · Learning to be visible and present in the company
- Determining ways and means to balance career and family
- · Reflecting on your attitude towards networking

Target group

Women who are already in a leadership role, or who want to get there

Corporate Sustainability—Social, Economic, and Environmental Responsibility

Learning objectivesTyler

- Understanding sustainability—the concept and its great importance
- · Acting sustainably
- · Reducing your own ecological footprint
- Being aware of social and economic aspects of sustainability and considering them on a daily basis

Target group

Employees and managers who would like to learn more about sustainability; Employees and managers who want to actively promote sustainable actions and sustainable management in the company

Unconscious Bias—Recognizing and Reducing Prejudices and Stereotypes

Learning objectivesTyler

- Understanding the meaning of the term unconscious bias and the effects of unconscious bias
- Understanding unconscious bias as a shortcut and part of human survival strategy
- Knowing the most common and important mechanisms underlying unconscious bias
- Knowing and applying strategies for countering unconscious bias

Target group

Employees with and without leadership functions who understand the causes of unconscious bias and want to develop new strategies for overcoming them

Intercultural Communication in Teams

Learning objectivesTyler

- Understanding the cultural definitions from the works of Geert Hofstede and Edward T. Hall
- Developing sensitivity around cultural differences
- Learning about common misunderstandings in intercultural teams
- · Applying management tools in intercultural teams
- · Developing and extending intercultural skills

Target group

Employees and managers who work in an intercultural environment

Diversity & Inclusion—Facilitating and Promoting Diversity

Learning objectivesTyler

- Understanding why diversity is becoming increasingly important in companies
- Recognizing diversity as a resource and success factor
- Recognizing and being able to grasp the different dimensions of diversity
- Understanding diversity management as a holistic strategy
- Recognizing and promoting the existing diversity in the team, as well as individual potential

Target group

Managers who want to put diversity to good use in the company; managers who lead diverse teams; executives who want to be role models within the company

Intercultural Teams—Basics of Successful Cooperation

Learning objectivesTyler

- Knowing and understanding cultural differences
- · Overcoming prejudices and stereotypes
- Expanding cultural intelligence and being able to use it in a professional setting
- Laying a good foundation for successful intercultural cooperation
- Being able to interact with people from different cultures in a respectful and appreciative manner

Target group

Employees working in intercultural teams; employees who want to learn more about other cultures and cultural differences

Intercultural Teams—Communicating with Colleagues from Other Cultures

Learning objectivesTyler

- Understanding the challenges of intercultural communication
- · Preventing conflicts and managing them successfully
- Being able to adapt communication and critical behavior with regards to intercultural interactions
- Being able to overcome language barriers effectively
- Being able to interact with people from different cultures in a respectful and appreciative manner

Target group

employees who work together in intercultural teams; employees who want to acquire more knowledge about how to deal with colleagues from other cultures; Employees who want to communicate effectively within an international team; employees who work together on intercultural teams; employees who want to acquire more knowledge about how to interact with colleagues from other cultures

Agile Toolbox for Workshops and Meetings

Learning objectivesTyler

- Understanding the concept of agile and what makes up an agile meeting or workshop
- Creating a common foundation for working as a team
- Identifying current pressing issues, develop new ideas and rethink old ideas
- Planning and holding large-group workshops in a targeted manner
- Integrating agile meeting formats regularly and successfully into the daily work routine
- · Implementing and realizing agile techniques

Target group

Executives as well as technical managers; project managers; team leaders, etc., who have not yet worked with agile methods to any great extent, but who want to change this for themselves and their (project) team and—perhaps even more importantly—are able to do so.

Agile Toolbox for Everyday Work

Learning objectivesTyler

- Learning about agile approaches and understanding the difference between agile techniques and agile methods
- Communicating respectfully, openly, and as agilely as possible
- Planning and implementing time management and team organization in an agile manner
- Ensuring quality and increasing efficiency with the right agile tools
- · Practicing and applying customer-centric thinking

Target group

Employees and managers who currently still work in mostly traditional structures and have little experience with agile methods, but who want to AND can change this in their own daily work.

The Basics of Business Process Management

Learning objectivesTyler

- Understanding what constitutes a process
- Learning about various process management methods
- · Identifying and addressing sources of errors
- · Continuously improving processes

Target group

Employees who are project leaders or are being introduced to process management; Managers who want to implement process management and familiarize themselves with the basics

Developing an Agile Mindset

Learning objectivesTyler

- · Knowing what a mindset is
- Knowing the difference between "fixed mindset" and "growth mindset"
- Understanding what an agile mindset means and what effect it has
- Knowing the values that makeup an agile mindset
- · Learning how to develop an agile mindset

Target group

Team members looking for ways to be more agile at work; Employees who want to renew their mindset and are interested in developing an agile mindset

Agile Project Management: Basics

Learning objectivesTyler

- Understanding the difference between classic and agile project management
- Understanding the benefits of agile project management and its fields of application
- Defining your own values and principles for the agile approach
- Understanding and being able to apply the typical processes of agile project management
- Understanding and using the key features of agile project management

Target group

Teams that intend to tackle an agile project; employees and teams who are looking for new methods of project management; employees who are interested in learning about agile project management

Classic Project Management—Planning Projects Successfully

Learning objectivesTyler

- Evaluating a task's project nature through the use of project attributes
- Analyzing the suitability of classic project management as a management method for a project
- Understanding the importance of project planning in classic project management
- Recognizing the importance of having clear responsibilities over the course of the project
- Defining the different roles in classic project management
- Treating the project assignment as the primary planning document
- Designing a successful transition from project planning to execution

Target group

Project managers who want to prepare themselves fully for a new project; Project managers aiming to draw lessons from challenges faced in previous project management and seeking to equip themselves for their upcoming projects.; Those involved in a project team, including clients, steering committees, and project stakeholders, seeking to explore the breadth and depth of goal-oriented project planning.

Scrum—The Overview

Learning objectivesTyler

- Understanding what is behind Scrum
- Learning how Scrum works
- Identifying the important roles in Scrum
- Understanding how a Scrum board is organized
- Learning how to implement a project based on Scrum

Target group

Employees of all hierarchical levels who will work in Scrum teams in the future; employees who are interested in Scrum and/or who are preparing for further education to become a Product Owner or Scrum Master

Working with the Kanban Board

Learning objectivesTyler

- Understanding the ideas that Kanban is based on
- Implementing Kanban for team tasks
- · Adapting Kanban boards to individual needs
- Improving the work organization of a team with the Kanban principles
- Using the pull principle to create the basis for self-organized work in a team

Target group

Teams that are looking for more productive ways to collaborate and use Kanban; project managers; executives; team leaders who want to use the Kanban board in a meaningful way and who are interested in and want to use agile methods

Classic Project Management—Managing Projects Successfully

Learning objectivesTyler

- Keeping project objectives in view and achieving targeted control of a project's time
- Identifying the right time and starting points for project management during a project and taking action accordingly
- Understanding the role of project planning in project steering and implementation
- · Considering costs and scope of work
- Analyzing, evaluating and managing identified stakeholders
- · Analyzing, evaluating and managing identified risks
- Preparing projekt reports in an addressable and target-oriented manner

Target group

All members of a project team who want to gain insight into the processes of project management; Project managers who want to successfully steer their project on the basis of their project planning

Targeted Networking

Learning objectivesTyler

- Understanding what networking is and how individuals and the company as a whole benefit from it
- Developing a networking strategy and how to prepare yourself
- Analyzing your own network, evaluating existing contacts and drawing conclusions from them
- Knowing how to enter conversations and what to look for while networking on the spot
- Using social and digital networks consciously
- Maintaining contacts

Target group

Specialists and managers who regularly want to establish and maintain external contacts, i.e. service providers, potential customers, partners or experts; managers and employees with a good level of self-assessment and initial contacts within a still unstructured network who want a general introduction to the topic

Customer-Oriented Communication on the Phone

Learning objectivesTyler

- Understanding common challenges during customer contact on the phone
- · Using your own voice convincingly and authentically
- · Planning and preparing for customer phone calls
- Leading through customer phone conversations professionally
- · Confidently handling complaint calls
- Using techniques to be more persuasive on the phone

Target group

Sales staff who are new to telephone sales; Other sales staff (e.g. office staff) who would like to be more confident during phone calls with customers; Employees who work in telephone customer service for external and internal customers who want to feel more confident on the phone; Call center agents with little work experience

Tough Customers: Navigating Challenging Situations with Confidence

Learning objectivesTyler

- Developing a service-oriented mindset that addresses customer needs
- Leading challenging conversations constructively and de-escalating effectively
- Setting boundaries and responding to boundary crossers
- Understanding tactics for resolving common challenges in customer interactions

Target group

Employees with customer contact

Customer Service: Providing Customer-Focused Support and Advice

Available in these languages:

German

50 minutes

Learning objectivesTyler

- Understanding the importance of customer service for customer satisfaction and loyalty
- · Communicating constructively and respectfully with customers
- · Identifying and narrowing down customer needs or issues
- · Adapting the approach to service based on the communication channel used
- · Handling crisis situations in customer service with confidence and professionalism

Target group

Customer service employees with and without management responsibility who want to improve their own skills and/or the skills of their team in terms of customer service.

Methods and Tools for Online Knowledge Transfer

Learning objectivesTyler

- Knowing the specifics to consider when conducting trainings in an online context
- Getting to know helpful digital tools to assist with the transfer of knowledge
- Learning how to prepare the knowledge development of the seminar participants in a systematic way
- Learning strategies for winning over participants, engaging them, and steering them in a virtual context

Target group

Professionals who need to share their knowledge online with employees and colleagues; trainers without online experience; career changers in the field of continuing vocational training; members of cross-locational and/or virtual teams; employees who are in contact with online meetings and/or moderate them themselves

Presenting—Basics of Professional Presenta- tions

Learning objectivesTyler

- Aligning your presentation with audience goals and expectations
- Understanding presentation structure
- · Applying content preparation strategies effectively
- Mastering key aspects of organizational preparation and applying them

Target group

Employees with and without a management role who want to learn or improve basic practical presentation skills.

Justification and Persuasion Techniques

Learning objectivesTyler

- Being able to argue your point professionally, even in difficult situations
- Mastering the key techniques for structuring statements
- Arguing your position confidently and persuasively
- Having a strong and convincing manner way of expressing yourself
- · Applying strategies for difficult negotiations
- Knowing the rules of conduct and conversation, so that you always stay cool when arguing a point

Target group

managers and supervisors; Staff in Marketing; sales and procurement

Managing Groups in a Training

Learning objectivesTyler

- Understanding the typical training phases and how they can be accomplished optimally
- Dealing with challenging types of participants
- · Overcoming disruptions and conflicts in the group
- · Staying cool in difficult situations

Target group

Specialists who want to pass on their know-how to employees and colleagues; people who are moving into the field of internal training

Basics of Communication

Learning objectivesTyler

- Knowing the different levels of communication and make use of them to communicate successfully
- Recognizing which messages are being conveyed below the factual level of the communication, using Friedemann Schulz von Thun's "Four Sides Model"

Managers who want to learn how to take a measured and solution-oriented approach to leadership, even in challenging situations; managers who want to develop their emotional and social skills and use them successfully during their interactions with their employees

Navigating an Error Culture in the Team—Fostering a Positive Approach to Mistakes

Available in these languages:

German

MACROLEARNING

70 minutes

Learning objectivesTyler

- Understanding the characteristics, types and potential benefits of mistakes
- Differentiating between the concepts of blame culture and just culture and comprehending the effects of a positive error culture
- Learning what the components of a positive error culture is, and how it encompasses various error strategies tailored to the organization's context
- Getting a handle on methods for error prevention and error management
- Growing as a team by learning from mistakes

Target group

For aspiring and experienced managers aiming to establish a positive error culture in their teams

Leading Across Generations

Learning objectivesTyler

- Recognizing the value of various generations in the context of work and leadership
- Getting to know the unique traits of different generations without making sweeping generalizations
- Mastering the challenges of leadership when handling teams and team members
- Becoming aware of the potential for conflict in a team consisting of several generations
- Implementing appropriate measures to foster team cohesion across age groups
- Taking advantage of a diverse mix of generations and learning from one another's insights and experiences

Target group

The training is designed for leaders who are faced with the challenge of individually supporting and motivating employees of different ages, as well as promoting productive teamwork within the team.

Virtual Teams—Motivation and Trust

Learning objectivesTyler

- Motivating virtual teams in a media-appropriate manner
- Building trust in virtual teams
- Promoting social networking in virtual teams
- Giving media-appropriate feedback

Target group

Junior and/or project managers; Leaders of virtual and agile teams

Virtual Teams—Communication

Learning objectivesTyler

- Using digital media
- Controlling collaboration
- Avoiding misunderstandings
- Conducting virtual meetings

Target group

Leaders of virtual and agile teams; project managers; junior managers

Successfully Structuring Team Development

Learning objectivesTyler

- Setting motivating goals
- Clearly setting task assignments
- Promoting constructive communication
- Building trust and promoting a feeling of togetherness

Target group

Employees who lead agile and/or virtual project teams; junior managers who are new to their management roles

Correct Deployment of External Personnel—What Managers Need to Know

Learning objectivesTyler

- Knowing how to deploy external personnel in a legally secure manner
- Knowing the various options for deploying external personnel
- Knowing the differences between contracts for work, service contracts and employee leasing or temporary employment
- Being able to distinguish between contracts for work, service contracts and employee leasing
- Selecting the appropriate form of contract and draft contracts correctly in order to avoid illegal employment relationships
- Being able to classify facts quickly and consult experts when necessary

Target group

Managers with staffing responsibilities; employees of human resource departments

Successfully Leading Hybrid Teams

Learning objectivesTyler

- Establishing binding rules as a basis for hybrid collaboration
- Being aware of the limits of hybrid work and planning shared "office activities"
- Holding hybrid team meetings which are inclusive and free of technical glitches
- Learning to strengthen the team spirit despite physical distance
- Keeping an eye on all team members, considering their individual needs and acting accordingly with fairness and empathy—no matter whether they work from home or in person at the office
- Exemplifying hybrid work as a manager and setting an example

Target group

Experienced, long-standing department heads who want to get a feel for hybrid work; "freshly minted" team leaders who want to get used to their role; managers who lead teams that divide their time between the office and working from home, either permanently or temporarily; managers who have only worked remotely so far and now need to narrow the gap between working in-person at the office and working remotely

Knowing Team Roles and Making Them Productive

Learning objectivesTyler

- Understanding the basic principles of motivation
- Recognizing and being able to eliminate demotivation among staff members
- Being able to create incentives tailored to individual employees
- Making effective use of key staff motivation tools
- Structuring job descriptions in a motivating way

Target group

Employees who lead agile and/or virtual project teams; junior managers who are new to their management roles

Manage Team Phases Successfully

Learning objectivesTyler

- Knowing the four team phases according to Bruce Tuckman
- Recognizing what phase the team is in
- Using the right management instruments in every phase
- Learning how to smoothly transition through the four phases: forming, storming, norming, and performing

Target group

Employees who lead virtual and/or agile teams; project and junior managers with their first management experience

The Basics of the OKR Method

Learning objectivesTyler

- Recognizing the benefits of the OKR method for oneself, one's own team, and the entire company
- Formulating, communicating, and tracking good objectives
- Formulating key results to make objectives measurable and trackable
- · Monitoring work with OKRs throughout an OKR cycle

Target group

Managers who want to introduce and establish the OKR method in their teams; Employees who want to/should work with the OKR method in the future

The Basics of Lean Management

Learning objectivesTyler

- Getting to know the characteristics of Lean management and it's advantages
- Knowing the seven types of waste, being able to identify and avoid them in the future
- Achieving improvements in production and administration with the help of Lean techniques Value-stream mapping, 5S and problem-solving
- Producing faster and more efficiently with the tools OEE, SMED and Poka Yoke
- · Internalizing and applying the PDCA cycle

Target group

All employees who are involved in Lean processes and who (will) help shape them. Both in production and in administration.; In addition, this training is intended for managers who want to implement Lean and familiarize themselves with the basics or refresh basic knowledge and close gaps.

Lean Management Advanced Course

Learning objectivesTyler

- Knowing the enemies of Lean Management and learning to work around them
- Motivating employees to actively participate in Lean processes
- Controlling and making sense of the interplay between demand signal and order for the customers and the company
- · Optimizing the existing value stream

Target group

Managers, division and production managers in production planning and control as well as manufacturing and quality management.; The focus is on executives who are already implementing lean and are looking for answers to the following questions: How should you implement lean? How do you optimize it? And how can you deal with doubts among employees?; However, the training can serve as a guide for all employees.

Learning objectivesTyler

- Recognizing factors that contribute to effective leadership
- Being able to determine the individual level of development of your team members in terms of skills and motivation
- Exerting a positive influence on your employees based on their level of development

Target group

Managers who want to lead and develop their employees individually based on their respective skill level

Leading According to Personality Type

Learning objectivesTyler

- Recognizing your own personality type and understanding its impact on your leadership style
- Adapting leadership approaches based on different employee types
- Understanding what personality type models are and how they simplify—but also limit—our working world
- Assessing individuals using a personality type model
- Sharpening self-perception and perception of others for everyday leadership tasks
- Applying personality-based strategies to solve conflicts and build effective teams

Target group

Leaders who want to learn how to target specific types of people and win them over; Emerging executives who want to expand their knowledge of human nature and use it successfully in their work environment.

The Manager as a Coach

Learning objectivesTyler

- Distinguishing the most important differences between leading and coaching
- Understanding the benefits of coaching
- Using the coaching approach
- Knowing the basic prerequisites for effective coaching
- · Building key coaching skills
- Structuring coaching conversations using the established GROW model

Target group

Managers who want to support and guide their employees in the capacity of coach

Transformational- Leadership—Motivating and Inspiring Employees

Learning objectivesTyler

- Knowing the differences between transactional and transformational leadership style
- · Being able to inspire employees with vision
- Inspiring employees to think of new concepts and solutions
- Extending the best possible individual support for employees and having a charismatic style
- Being able to implement tranformational leadership in your own daily work routine

Target group

Managers who are interested in reflecting on and improving their leadership on a practical level; Managers and those aspiring to become managers

Agile Leadership

Learning objectivesTyler

- Understanding the importance of an agile mindset in the workplace
- Distinguishing between mindset, skillset, and toolset
- · Learning the most important skills for agile working
- Getting comfortable using the key tools for agile working

Target group

Experienced leaders; Leaders who want to review their methods; Junior managers

Lateral Leadership—Leading Effectively Without Being a Supervisor

Learning objectivesTyler

- Knowing the importance and relevance of lateral leadership
- Knowing the difference between lateral and disciplinary leadership
- Understanding how lateral leadership works even without disciplinary authority
- Discovering the tools of lateral leadership and the benefits they bring
- Dealing constructively with possible conflicts

Target group

Managers who are responsible for the results of a project or assignment, without being a disciplinary superior in charge of the team.

Situational Leadership®

Learning objectivesTyler

- Being able to apply the model leading by maturity level/Situational Leadership® in everyday management practice
- Recognizing the maturity level of your employees
- Adapting your leadership methods to the maturity level of your employees
- Getting staff members with fading motivation back on board
- Protecting motivated but inexperienced employees against excessive demands
- Giving highly motivated employees freedoms without losing sight of the goals

Target group

New managers who want to or are expected to apply the concept of maturity levels in practice; Managers who are feeling limited in the motivation and performance of their team

Moderating Meetings

Learning objectivesTyler

- Understanding the importance of effective meetings
- Understanding meeting formats
- · Understanding the stages of a meeting
- Preparing properly for meetings
- Conducting meetings well
- · Following up effectively after meetings

Target group

Managers and members of agile teams; employees in partly self-organized projects, and assistants

Moderating Online Meetings

Learning objectivesTyler

- Understanding the advantages and disadvantages of online meetings
- Understanding the unique challenges of online meetings
- Preparing and planning online meetings well
- Applying the specific rules of online meetings
- · Actively managing online meetings

Target group

Members of cross-locational and/or virtual teams; employees who are in contact with online meetings and/or moderate them themselves

Feedback between Colleagues

Learning objectivesTyler

- Learning how feedback can create a productive atmosphere in a team
- Finding out what is important when giving feedback
- Understanding how to gracefully accept feedback
- Discovering how peer feedback can broaden your own perspective
- Learning how to address critical points so that something will actually change

Target group

Employees of all hierarchical levels who work in teams

Giving Feedback

Learning objectivesTyler

- Knowing how to use feedback as a management tool
- Using the Johari Window, knowing the difference between how you perceive yourself and how others perceive you, allowing you to give staff members constructive feedback
- Being able to prepare critical feedback and use it constructively
- Using positive feedback in a way that promotes the development of the staff and team

Target group

Staff members with leadership responsibilities but without a management position; managers who have a need for cooperative team-leadership methods; young managers

Making Good Decisions

Learning objectivesTyler

- Recognizing and being able to analyze problems
- Knowing and using methods for finding solutions
- Being able to approach decision-making processes in a structured way
- · Communicating decisions well and involving staff
- · Implementing decisions

Target group

Young managers and managers who need to be able to make decisions in an understandable and structured manner

Promoting Professional Development—Fostering a Culture of Learning within Your Team

Learning objectivesTyler

Target group

- Promoting and embodying awareness of the necessity of a learning culture within the company
- Creating conditions for a successful learning culture
- Being a role model for employees in learning
- Strengthening employees' sense of empowerment and ownership

Management

Customer success: Satisfied customers, long-term loyalty

Learning objectivesTyler

- Understanding what customer success means
- Recognising customer needs
- Building customer loyalty for the future
- Measuring customer success

Target group

Employees with and without management responsibility; Sales; Key account management; Customer service management; Distribution; Marketing; Customer service; Product development

Big Data—Understanding the World of Data

Learning objectivesTyler

- · Knowing the definition and characteristics of Big Data
- Understanding the potential and challenges of Big Data for society and business
- Being familiar with the Big Data lifecycle
- Having an overview of important Big Data technologies
- Being able to classify artificial intelligence in the context of Big Data

Target group

Employees with or without a management role who know little about Big Data and related topics such as artificial intelligence and want to acquire basic knowledge about them.

Understanding Digitalization

Learning objectivesTyler

- · Recognizing the essential drivers of digitalization
- Becoming familiar with the term VUCA and the associated diagnosis of time
- Understanding the impact of digitalization on traditional business models
- Recognizing that successes from the past are not automatically perpetuated
- Understanding customer centricity as a consequence of digitalization

Target group

Employees who want to be primed for digitalization; teams analyzing their working environment with digitalization in mind; managers who are looking for new techniques, customers, and markets

Innovation—Needs-Based Development and Testing of Prototypes

Learning objectivesTyler

- Creating the right essential conditions for testing your innovations with your team
- Relying on analog methods for directional insights and needs-based prioritizing
- Pretending that your prototypes are further along than they actually are and learning from the behavior of the test subjects
- Letting yourself be guided by the ten basic rules for successful testing

Target group

Managers and employees who want to focus on strategies and support innovation teams during the testing phase.

Design Thinking

Learning objectivesTyler

- Recognizing the need for innovation and new creative methods
- · Creating the right conditions for design thinking
- Understanding the design thinking process
- Becoming an immediate expert and understanding users' needs
- · Implementing the process of finding solutions
- Being able to use prototyping, personas, and learning journeys

Target group

Teams that intend to initiate a Design Thinking process; employees who are interested in Design Thinking; employees and teams who are looking for new methods of creative problem solving

Innovation—Promoting an Innovative Mindset

Learning objectivesTyler

- Finding out what innovative thinking means and what conditions you can create for it
- Eliminating disruptors and overcome distractions to allow innovation to thrive
- Deliberately ignoring normality in your creative phases and learn to succeed through failure
- Leading in an innovation-friendly manner and promote the innovative power of your employees

Target group
